(Contact person's signature)

(Parent/Guardian Signature)

REMINDER: Community Service is just what the term describes, service to COMMUNITY.
(Examples: church community, school community, local community or other outside organization)

Work done within the family would usually be considered chores or a family obligation. If you are performing work related to a special family situation that needs your assistance, it must be approved IN ADVANCE with your Theology Teacher to determine if it may be counted as community service.
